Bead Blaster

ONLY £99.99

TBD014FH

The Unite Bead Blaster has turned one of the most frustrating and time consuming jobs in the tyre shop into one of the quickest and easiest. It seats the beads of difficult tubeless tyres instantly by directing a rush of air into the gap between the tyre and rim, lifting the bead to give a contact seal which allows the tyre to inflate. This version has a 20 litre tank which is perfect for any workshop fitting tyres. (See page 11 for larger commercial bead blaster). Made in the UK and supplied with full CE certification.

Commercial Consumables & Tools

A range of consumables and tools specifically for commercial vehicles.

Balancing Compound

Can you afford not to be balanced?

New test with **EASY BALANCE** shows savings of up to 33% in tyre cost per km!

Easy and fast application during tyre fitting. One balancing for the whole tyre's lifetime, with better precision than lead-weight balancing. Tyre wear is minimised, as is wear on suspension, chassis and wheel bearings.

A heavy duty, multi purpose tyre sealant offering an effective method of puncture repair for use with both on-road and off-road tyres.

Slowly pump the required amount into the tyre to prevent punctures to commercial and agricultural tyres.

Also available in smaller pouches.

3 Ton 'Turbo Lift' Trolley Jack (PU Wheels)

- 3 ton lifting capacity
- 120mm - 450mm lifting height
- 'Turbo Lift' system
- Heat treated chromed pump pistons
- Universal joint release valve
- Removable two piece handle with rubber grip
- Rubber saddle pad

TBD1101

3 Ton 'Turbo Lift' Trolley Jack (PU Wheels)

£129.99

3 Ton 'Turbo Lift' Trolley Jack (Steel Wheels)

- 3 ton lifting capacity
- 130mm - 490mm lifting height
- 'Turbo Lift' system
- Heat treated chromed pump pistons
- Universal joint release valve
- Removable two piece handle with rubber grip
- Rubber saddle pad

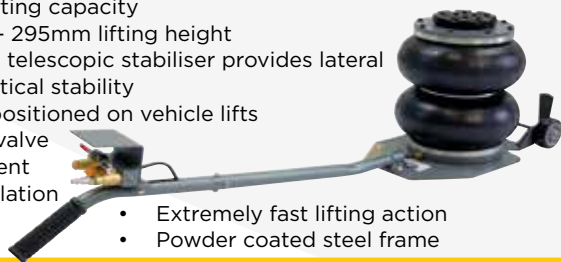

TBD1103

3 Ton 'Turbo Lift' Trolley Jack (Steel Wheels)

£169.99

2 Ton Pneumatic Balloon Jack

- 2 ton lifting capacity
- 115mm - 295mm lifting height
- Internal telescopic stabiliser provides lateral and vertical stability
- Easily positioned on vehicle lifts
- Safety valve to prevent over inflation

- Extremely fast lifting action
- Powder coated steel frame

TBD112TPB

2 Ton Pneumatic Balloon Jack

£399.99

1.35 Ton Aluminium Racing Jack

- 1.35 ton lifting capacity
- 80mm - 375mm lifting height
- All-Aluminium construction
- Weighs only 10kg
- Universal joint and single pump system for added reliability
- Side carry handles
- Rubber saddle pad
- Non-marking wheels

TBDARJ135

1.35 Ton Aluminium Racing Jack

£159.99

3 Ton Jack Stands

- 3 ton supporting capacity
- 322mm - 465mm lifting height
- Supplied in pairs
- Pin type support column adjusts to multiple heights
- Large support saddle with rubber protection to avoid damage to lifting point
- Total weight (as a pair) 5.2kg

TBD1100W

3 Ton Jack Stands

£47.99

6 Ton Jack Stands

- 6 ton supporting capacity
- 404mm - 604mm lifting height
- Supplied in pairs
- Pin type support column adjusts to multiple heights
- Large support saddle with rubber protection to avoid damage to lifting point
- Total weight (as a pair) 11.2kg

TBD2100W

6 Ton Jack Stands

£89.99

3 Year Warranty

6 Ton Bottle Jack

- 6 ton lifting capacity & 125mm lifting height
- European design tested to the latest European standards
- Twist top for precise height adjustments
- Can be used in horizontal and vertical positions
- Solid chromed pump linkage
- Overload protection
- Cast iron base

TBDBJW6T

6 Ton Bottle Jack

£34.99

12 Ton Bottle Jack

- 12 ton lifting capacity & 125mm lifting height
- European design tested to the latest European standards
- Twist top for precise height adjustments
- Can be used in horizontal and vertical positions
- Solid chromed pump linkage
- Overload protection
- Cast iron base

TBDBJW12T

12 Ton Bottle Jack

£69.99

20 Ton Bottle Jack

- 20 ton lifting capacity & 145mm lifting height
- European design tested to the latest European standards
- Twist top for precise height adjustments
- Can be used in horizontal and vertical positions
- Solid chromed pump linkage
- Overload protection
- Cast iron base

TBDBJW20T

20 Ton Bottle Jack

£69.99

30 Ton Bottle Jack

- 30 ton lifting capacity & 180mm lifting height
- European design tested to the latest European standards
- Twist top for precise height adjustments
- Can be used in horizontal and vertical positions
- Solid chromed pump linkage
- Overload protection
- Cast iron base

TBDBJW30T

30 Ton Bottle Jack

£99.99

20 Ton Low-level Bottle Jack

- 20 ton lifting capacity & 90mm lifting height
- European design tested to the latest European standards
- Twist top for precise height adjustments
- Can be used in horizontal and vertical positions
- Solid chromed pump linkage
- Overload protection
- Cast iron base

TBDBJLE20T

20 Ton Low-level Bottle Jack

£69.99

20 Ton Air Bottle Jack

- 20 ton lifting capacity & 245mm height
- Extension screw
- High speed aluminium air motor
- Specially treated cylinder walls
- Chrome pistons ensuring premium performance, durability, long-life and safety
- Filters prevent contamination of air/hydraulic system

TBDBJWA20T

20 Ton Air Bottle Jack

£299.99

Wheel Lifter

- If you need a quality wheel lifter that is affordable, extremely fast, and simply functional then look no further
- Lifts wheels directly up to and from vehicles
- Uses powerful gas springs instead of troublesome and expensive pneumatics, electrics and hydraulics
- Very little effort needed on the part of the technician
- High manoeuvrability and ergonomic design meaning installing and removing wheel assemblies couldn't be easier
- Minimise strain and maximise productivity by changing the hardest job in the tyre shop into the easiest

TBD11WL

Wheel Lifter

£499.99

Tyre & Wheel Cart

- 200kg lifting capacity
- Holds 14" - 20" wheels
- High quality construction
- Patented tilting system
- Push-Slide secure locking
- Non-marking durable wheels with industrial bearings
- Powder coated steel frame
- Weighs only 20kg

TBDWCART

Tyre & Wheel Cart

£199.99

Lite Align 8CCD Computerised Wheel Aligner

The LA850C from Lite Align is a super fast 8CCD computerised wheel alignment system suitable for use in tyre shops and other workshops. LA850C measures a complete range of vehicle geometry angles.

The user friendly software guides you through the alignment process. All measurements taken are compared with the manufacturer's specification and included on the printout.

The database carries over 15,000 vehicles with the option to create your own specific vehicle database. All measurements are to industry recognised tolerances. Inspection results can be stored, archived and printed.

Haweka Pro-Clamps

Pro-clamps are included as standard. Their precise positioning mechanism means that no run-out compensation is needed. The feet are made of engineering plastic so alloy rims are protected.

Includes:

- 4 x Wheel Mounted Camera Units
- 1 x Litealign Blue Cabinet
- 1 x Pair of Turnplates
- 1 x Brake Pedal Depressor
- 1 x Steering Wheel Lock
- 4 x Haweka Proclamps
- Windows PC with 24" Monitor
- Printer
- Delivery, Installation & User Training

Lifting Equipment

QuickJack is a portable car lift system unlike any car jack you've ever seen. QuickJack makes vehicle maintenance on and off the track convenient and lightning fast. Unlike traditional car jacks, QuickJack lifts your vehicle 20" off the ground while you simply hold down a pendant remote control button. QuickJack is unique for a portable car lift, with two, 14-gauge steel frames that slide under each side of your vehicle. Plus, no cross beams whatsoever means you get clear undercarriage access.

- CE/TUV approved
- Concealed electric cables and oil pipes
- Electromagnetic safety locking system
- Double hydraulic cylinders, drive chain and chain wheels give even lifting and lowering
- Guard to cover chain and chain wheel to ensure safe operation
- Electromechanical top limit switch to prevent hydraulic system overload
- Safety cable system to keep lifting arms synchronised
- Lift suitable for low ground clearance vehicles
- Full rubber door guards
- Rubber jacking point on upper arm

Nitrogen Inflation

Nitrogen Inflation means less pressure loss through the tyre resulting in better tyre performance, reduced fuel consumption and safer motoring.

IN2FLATE 58 lpm Nitrogen Generator With Manual Inflation

The TBD58CK produces Nitrogen at 58 litres per minute at 8 bar and requires manual inflation.

Includes

- PCL MK4 Inflation Gauge
- 15 Metre Retractable Hose
- Standard Airline Connector
- 500 Green Valve Caps
- 100 Nitrogen Booklets

Why choose IN2FLATE Nitrogen?

IN2FLATE Nitrogen generators are the result of over 20 years research and development in the highest level motorsport (Formula 1 Grand Prix) and retail environments. Tyre Bay Direct are Europe's largest Nitrogen inflation system suppliers with installations in Halfords Auto Centres, Kwik Fit, Stapletons, Merit Tyre, Selecta Tyre and thousands of dealership and fast fit centres.

The IN2FLATE system has been designed as an onsite Nitrogen generator providing an endless supply of high purity Nitrogen, perfect for tyre inflation. Available in a variety of models to suit all applications. Why not add Nitrogen tyre inflation to your services to increase your revenue and offer your customers the very best inflation mixture available.

THE DIFFERENCE WITH NITROGEN

SIP Compressors

Our range of SIP compressors meet the needs of all users - from trade models designed for small workshop and garage operations, through to powerful and reliable professional models, right up to heavy-duty industrial machines suitable for the most demanding of applications.
