

ATLAS

Automotive Equipment

WB12

32" Manual Data Entry Automatic Spin Wheel Balancer

Packing the punch of the Atlas Auto Equipment brand into a simple to use package, this wheel balancer is the latest in our ever-popular range of tyre service equipment.

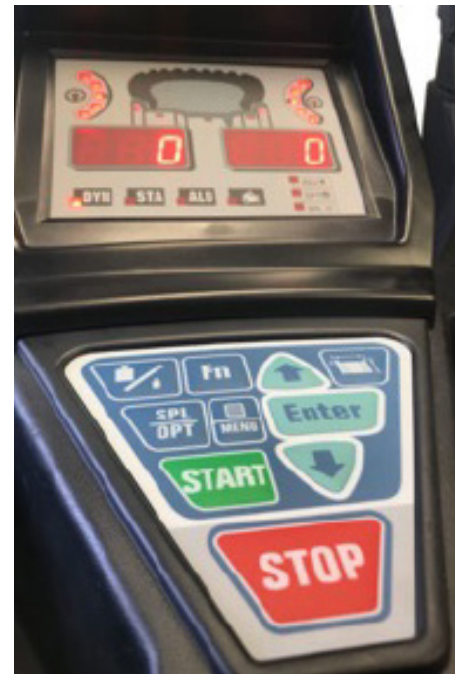

The WB12 is capable of balancing rim diameters up to an impressive 32". Its simple to use keypad allows for easy input of the wheel dimensions. From there, you simply lower the protective hood and the wheel balancer will begin.

Optional Extras:

Motorcycle Adapter
