Automotive Equipment

TC320

24" Fully-Automatic Tyre Changer

The TC320 is designed to ensure optimal efficiency with every tyre change, with a three point-assist arm for lifting and depressing of the bead, the equipment is designed to limit the potential damage to alloy wheels.

It has a time-efficient tilt arm design, 3 position clamping jaws and power assist arm, making easy work of run-flat tyres. The front access panel makes for easy servicing while the optional motorcycle adaptors, jaws, mounting head and bead breaker blade mean this tyre changer is up to any task.

Rim clamping range external: 10" – 22"

Rim clamping range from internal: 12" – 24"

Max. tyre diameter: 1000 mm (39")

Max. tyre width: 355mm (13")

Bead breaker cylinder force at 10 Bar: 3000 Kg

Inflating pressure device max: 3.5 bar (50 psi)

Motor power: 0.75 220V 1ph

Rotating speed: 7rpm

Optional Extras: Motorcycle Adapters, Plastic Mounting head
