

U-226

SEMI-AUTOMATIC TYRE CHANGER

The Unite U-226 is a high-performance tyre changer designed to meet the advanced needs of low-to-mid volume garages and repair shops. With its industry-leading capabilities, this machine is specifically engineered to service a wide variety of wheel and tire assemblies, maximizing your shop's versatility.

The ideal solution for tackling challenging jobs, as it's built to handle low-profile, high-performance, and run-flat tyres.

KEY FEATURES

- **Tilt-Back Tower Design** Tilts backward pneumatically via a pedal, creating extra space for easier, faster, and safer mounting/demounting of wheels. Pneumatic control lock the mount/demount head in place, eliminating the need to reset it between every tyre on the same set of wheels.
- **3 Way Help Arm:** An essential tool for assisting in the mounting and demounting of difficult tyres, including run-flats and those with hard sidewalls.
- Engineered to handle wide range of the most common rim sizes.

SPECIFICATIONS

External Locking Rim Dimensions	12"-23"
Internal Locking Rim Dimensions	14"-26"
Max. Wheel Diameter	1000mm (40")
Max. Wheel Width	355mm (14")
Bead Breaker Force	2500kg
Working Pressure	8-10 bar
Power Supply	(1ph)/ 220V 13amp
Motor Power	0.75kw
Max. Rotating Torque (Turntable)	1078 Nm
Noise Level	<75dB
