

U-500

MOTORISED MANUAL DATA INPUT WHEEL BALANCER

The Unite U-500 is a motorised, self-calibrating wheel balancer designed for passenger vehicle work. It's the perfect combination of robust engineering and exceptional value, guaranteeing the speed, accuracy, and long service life that Unite is known for worldwide. This feature-packed machine includes self-calibration and self-diagnosis functions for consistent accuracy and simplified maintenance. With an easy-to-read LED light and digital display that provides clear feedback, this model offers a manual data and motorised spin and can handle rims from 10" to 24", allowing you to service a wide range of vehicle.
