or **£42.00** a week

Commercial Wheel Balancer

Part No.	Description	Price
TBDU850	Commercial Wheel Balancer	£1,499.00

Commercial Wheel Balancer for truck and bus featuring various balancing modes and a pneumatic tyre lifting device, brake pedal and with a maximum wheel weight of 150kg. The software within the balancer also features a self diagnostic and calibration function to ensure complete accuracy at all times. Extra steel support at the base of the cabinet provides rigidity during the balancing process and the machine also has manual input of the offset and wheel diameter making the operation simple but effective and is ideal for all Truck and Bus applications.

Specification	TBDU850
Max Wheel Weight	150Kg
Power Supply	220/415v
Balancing Accuracy	+/- 50g
Rim Diameter	24"
Measuring time	8-20 Secs

ONLY £1,499
or **£8.65** a week

The Uniflate Nitrogen Tyre Inflation System

The Uniflate Nitrogen Tyre Inflation system delivers high purity, dry nitrogen for tyre inflation. Cut your fleet fuel bills, tyre wear and downtime as well as offering more flexibility on your driver maintenance schedule with the Commercial model of Uniflate Nitrogen. Delivering over 228 litres per minute at a maximum pressure of 13 bar this system should be a mainstay of any workshop dealing with fleet contracts or fleets with their own maintenance workshops.

ONLY £2,699
or **£24.60** a week

COMMERCIAL BEAD BLASTER

ONLY
£169.00

Part No. TBD037-F

The Bead Blaster has turned one of the most frustrating and time consuming jobs in the tyre shop into one of the quickest and easiest. The bead blaster seats the beads of difficult or flattened tubeless tyres instantly by directing a high volume blast of air into the gap left between the tyre and rim, lifting the bead to give an instant seal which allows the tyre to inflate.
